

REACT FRONTEND DEVELOPER

DO YOU LIKE TO BE PART OF A VIBRANT AND INNOVATIVE SCALEUP COMPANY AND WORK ON A PROFESSIONAL GRADE SOFTWARE PLATFORM? THEN PARAPY IS LOOKING FOR YOU!

At ParaPy our mission is to bring the next level of automation to engineering design. With our inhouse developed software platform ParaPy (Python-based), engineers can develop custom applications that accelerate their work 100x allowing them to focus on awesome new designs. Among the customers that already use ParaPy are Fokker Aerostructures, Aker Solutions and Royal HaskoningDHV. And since we are rapidly growing, we need you to help us realize our mission!

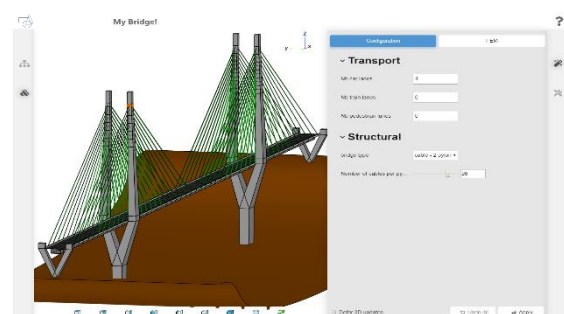

ParaPy is looking for creative and experienced frontend developer, for whom React holds no secrets and who masters all the modern web-technologies such as Vue, node.js, three.js and WebGL. As React frontend developer it is your responsibility to guarantee our end-users a smooth experience and that the rendered 3D designs look stunning. You will design and implement new frontend components using React. You will use and extend server-side data interfaces. You will engage with our project teams to develop customized user-interface that match the need of our customers.

About you

- BSc. of Science in Computer Science or equivalent
- 3+ years of proven professional experience in React and JavaScript
- Experience with 3D rendering, Docker, cloud technologies and databases is a plus
- A demonstratable passion for UI & UX
- You can work effectively in a fast-paced environment with limited specifications
- You enjoy reading and delivering clean code

What's in it for you?

- A good salary and the opportunity to grow with the company
- Work in a highly talented team and learn every day
- Have a visible impact at our users around the globe
- Energizing atmosphere in the inspiring tech incubator of Yes!Delft
- Biweekly demo's and presentations followed by Friday afternoon drinks
